Bakersland®

Superior Quality Bakery Products

Wholesale Bakery Products for Retailers

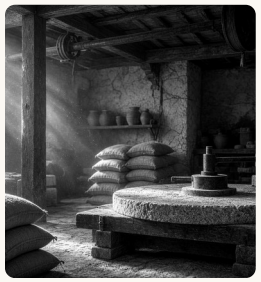

October 2026

BAKERSLANDINC.COM

COMPANY

Bakersland at a glance.

A family baking line from a Greek flour mill to a California plant, now a wholesale bakery serving kitchens nationwide.

Nick Koufoudakis

1850s

Great-great-grandfather Stavros started a flour mill in Greece that continued through two generations.

1976

Nick Koufoudakis established the first industrial fillo dough factory in Athens.

1997

Stavros Koufoudakis, with his father Nick, opened our doors in Los Angeles, bringing Greek pastry craft to California.

Today

The plant is in Irwindale — producing ready-to-use tart shells and more for kitchens nationwide.

SINCE 1976 · IRWINDALE, CALIFORNIA · WHOLESALE BAKERY · NATIONWIDE

Wholesale bakery products for bakeries, restaurants, hotels, retail, and pastry kitchens

Regional and national distributors carry Bakersland lines for broader foodservice coverage.

HERITAGE · FROM A GREEK FLOUR MILL TO A CALIFORNIA PLANT

1850s — Great-great-grandfather Stavros's flour mill, Greece

1976 — Nick Koufoudakis's first industrial fillo factory, Athens

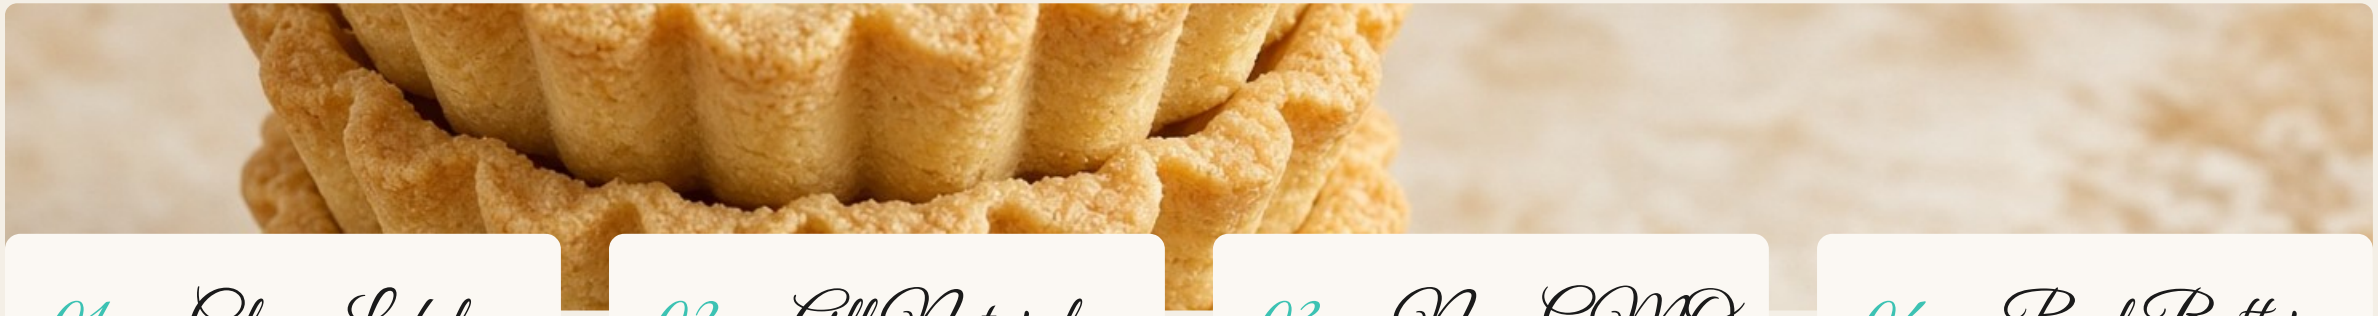

1997 — Stavros & Nick open in Los Angeles

Today — Baking in Irwindale, California

COMPANY · OUR PROMISE

Our product promise.

Clean Label · All Natural · Non-GMO · Real Butter — the four points every Bakersland product conversation starts with.

01 Clean Label

02 All Natural

03 Non-GMO

04 Real Butter

ALL NATURAL · NON-GMO

- All-natural, non-GMO core lines
- No preservatives on core lines

REAL BUTTER

- Real butter on signature shortcrust
- Our signature butter tarts deliver a sweet butter-cookie flavor, a buttery aroma, and an eye-catching golden-brown color.

COMPANY · FOOD SAFETY

Food safety your buyers already trust.

SQF certified

SQF CERTIFIED

CERTIFIED SCOPE

Food Sector Category 13: Bakery and Snack Food Processing

Certified Products: Tart Shells; Custard Filled Tarts; Baklava, Tres Leches Cake

CODE	SQF Food Safety Code: Food Manufacturing, Edition 9
CERTIFICATE	#62171, issued by Safe Food Certifications, LLC
CERTIFICATION	Recertification, audit Aug 20, 2026
EXPIRY	November 23, 2027
SITE	16187 Ornelas St., Irwindale, CA

SQF is a GFSI-recognized, HACCP-based program.

EASIER VENDOR APPROVAL

Most grocery, club, and foodservice buyers require a GFSI-recognized scheme. SQF is that scheme — so your brand does not have to wait on a second factory audit to get listed.

RECALL-READY TRACEABILITY

Lot coding and documented process controls mean we can trace a run.

Kosher options available; ask Sales for item-specific kosher status.

MANUFACTURING CAPABILITIES

Your name on the box. Our bakery behind it.

Contract manufacturing lets bakery and pastry brands put product in market without building a second bakery.

You keep the brand, the recipe, and the customer.

MANUFACTURING CAPABILITIES

Two ways we supply retail: in-store bakery & retail-ready.

IN-STORE BAKERY

- Our current lines supplied for your bakery case: ready-to-fill tart shells, custard filled tarts, puff pastry shells, baklava, fillo and tres leches cake
- Frozen for pastry kitchens that need the same plate, every time.

RETAIL-READY

- Retail and foodservice packs, labeled to your brand.
- Private label on SKUs we already bake

MANUFACTURING CAPABILITIES

In-store bakery programs: what we can make.

START FROM THE ACTIVE LINES

- Tart shells 1.5" to 13.5"
- Custard filled tarts 2", 4" and 9"
- Cream rolls and horns
- Greek triangle baklava
- Fillo and kataifi
- Tres leches half sheet

CUSTOM SHELLS

Sizes, shapes, edge styles, and coatings developed to your brief within our real-butter shortcrust.

FILLED PROGRAMS

Frozen for the same plate, every time.

CAKE PROGRAMS

For retail cases and foodservice — developed within bakery scope.

MANUFACTURING CAPABILITIES

Retail-ready: prepackaged & labeled for sale.

Your brand, retail-packed and labeled in our plant.

PACK, LABEL, SHIP

Retail packs, foodservice cases, labeling to your specs, and freight coordination nationwide.

- Custom shells or your brand on SKUs we already bake.

RETAIL TART PROGRAM

A grocer or bakery brand running ready-to-fill shells in their own retail pack — our crust, their name.

- Crust, fill, pack, and label are specified with you — not a one-size catalog slapped with a sticker.

SET UP PER PROGRAM

Retail packaging, labels and unit UPCs are set up during the brief. Consultation — Volume, format, pack, and timeline.

MANUFACTURING CAPABILITIES

Custom development.

01

Custom tart shells

Sizes, shapes, edge styles, and coatings developed to your brief within our real-butter shortcrust.

02

Filled programs

Frozen for the same plate, every time.

03

Fillo, kataifi & baklava

Fillo & kataifi dough. We also make SQF certified fillo items.

04

Cakes

Wholesale cake programs for retail cases and foodservice — developed within bakery scope.

SAMPLES **Development and tasting samples until the spec is locked.**

MANUFACTURING CAPABILITIES

What we run in-house.

01 **Mixing**
Dough and batter mixed to your spec.

02 **Depositing**
Accurate fill weights, run after run.

03 **Forming**
Shells, shapes, and laminated formats.

04 **Baking**
Even color and bake across the lot.

05 **Freezing**
Held frozen for a stable finish and ship.

06 **Packing**
Retail and foodservice packs, labeled to your brand.

MANUFACTURING CAPABILITIES

Why partner with Bakersland.

BENEFITS

Capacity without a plant

No ovens, freezers, or second crew to add. You book runs, not idle capacity.

Pastry already in the building

Shortcrust, lamination, and frozen finishing are what we do every day — not a side line.

Scale that can move

Pilot cases for a launch, then ongoing frozen production as the program lands in stores or hotels.

You keep the brand

Marketing, recipes, and customer relationships stay with you. We bake, freeze, pack, and ship.

HOW WE WORK

Transparency

A single sales contact, production updates, and no surprise change orders.

Built to the brief

Crust, fill, pack, and label are specified with you — not a one-size catalog slapped with a sticker.

Confidentiality

Recipes, formulas, and brand files remain yours under written confidentiality.

MANUFACTURING CAPABILITIES

From brief to shelf: six steps.

01 Consultation

Volume, format, pack, and timeline.

02 Proposal

Scope, lead time, and MOQ.

03 Samples

Development and tasting samples until the spec is locked.

04 Production

Scheduled runs on the Irwindale line, with your labeling and case configuration.

05 Quality

In-process checks, finished-goods review, and the certificates your buyers ask for.

06 Delivery

Shipping to your DC or accounts, plus ongoing support for reorders.

MANUFACTURING CAPABILITIES

Quality & paperwork that travel with the program.

SQF CERTIFIED

SQF CERTIFICATE #62171

Scope: Tart Shells; Custard Filled Tarts; Baklava, Tres Leches Cake

PAPERWORK WITH THE LOAD

Spec sheets and certificates travel with the program.

HONEST SCOPE

We only co-pack what sits inside our SQF scope. If a format does not, we say so before you spend on samples or artwork.

MANUFACTURING CAPABILITIES

Example programs.

Typical fits — not a client list.

Retail tart program

A grocer or bakery brand running ready-to-fill shells in their own retail pack — our crust, their name.

Hotel pastry

Filled tarts for banquet and outlet pastry, frozen so every property plates the same dessert.
